- Price list replaces previous issues.
- Dovianus B.V. is not responsible for typographic errors.

WHAT IS A NEEDLE EXCHANGE PROGRAM ?

It is a repair job.

Damaged needles (bent or blunt) from your NA (needle assembly) will be replaced by new, sharp needles.

You will receive the same or a revised NA.

WHAT DO I NEED TO DO ?

1. Contact Dovianus and obtain a RAN (return authorisation number) for your NA.
2. This RAN will be issued for future communication.
3. Remove the damaged NA from your Dopak sampler.
4. Clean your NA with cleaning agent.
5. Seal your NA in thick plastic bag or sheet, using e.g. a cork to avoid sharp ends.
6. Pack in a suitable strong box, marked on the outside with the RAN you received including information of original supply.

BASIC PRICING NEEDLE EXCHANGE PROGRAM

Description			VTO	VTA
Process		Vent	Price	Price
0,85mm	x	0,85mm	175	120
